

# Combine Reflections & Ideas

*Instructions:* Now that you've reflected on what you learned from your prototype during the Test phase, let's combine your reflections to make a new possible solution. Write down everything you learned and want to include from your Reflection Grid from the last phase. Based on your reflections, you may want to iterate on your previous solution, you may want to review the other ideas you sketched out, or you may want to brainstorm totally new solutions. If you stay with your original idea, push it to be bolder or larger-scale.
