Instructions: First, identify the assumptions you have designed your prototype to test. Next, write debrief questions that you will ask the person who is testing your prototype. Take notes on what you learn from that person.

1 ASSUMPTION

What is the assumption that this prototype is designed to test?

What questions do you want to ask the person who is testing your prototype to learn about the assumptions you are trying to test?

PROTOTYPE TESTING NOTES

What did you hear?
Write down specific quotations. Listen for stories, emotions, motivations and behaviors. Listen for surprising or contradictory information.

What did you see?
Look for emotions (sadness, excitement, joy) in the person’s body language and facial expressions.

2 ASSUMPTION

What is the assumption that this prototype is designed to test?

What questions do you want to ask the person who is testing your prototype to learn about the assumptions you are trying to test?
Instructions: Take a look at the notes you collected from testing your prototype. Use the worksheet to organize your thoughts, reactions and questions. Use this tool to make sense of what you experienced and capture areas of potential opportunity that you would like to address as you create your next prototype.
