

COVID-19 Health Precautions Advisory Note

This Advisory Note provides Schools2030 Forum delegates with advice and guidance to keep you safe from COVID-19 and to prepare for your travel in light of COVID related rules and restrictions..

COVID-19 Advice and guidance

Standard Practices in Tanzania:

Though the level of COVID-19 is unknown in Tanzania, guests and visitors are still advised to take standard COVID-19 health and safety protocols, such as:

- i). Social distancing.
- ii). Wearing masks.
- iii). Sanitizing.

COVID-19 testing requirements

Travelers entering Tanzania, including Tanzanian nationals, returning residents and passengers transiting through land borders who are:

Fully vaccinated will be exempt from both COVID-19 RT-PCR and rapid antigen testing requirements. Travelers must present a valid vaccination certificate with a QR code for verification on arrival. The only accepted vaccines are those approved by the URT and the World Health Organization.

Not fully vaccinated, unvaccinated and those not eligible for vaccination due to their country policy will be required to present a negative COVID-19 RT-PCR or NAATs test certificate with a QR code issued within 72 hours before departure.

The following rules apply to partially vaccinated or unvaccinated travelers who do not have a negative pre-departure COVID-19 RT-PCR certificate:

Passengers traveling by air and on international marine vessels will undergo COVID-19 RT-PCR testing at their own cost of USD 100 and self-isolate while waiting for their results.

Passengers traveling on international, regional, and inland vessels must undergo rapid antigen testing at their own cost of USD 10.

Passengers who test positive for COVID-19 must take an RT-PCR test for confirmation at their own cost of USD 50.

Travelers who test positive during the on-arrival rapid antigen testing but do not present symptoms of COVID-19 will be isolated for treatment at designated health facilities.

Hospitals and Pharmacies to get your test before your departure.

1. [IST Clinic](#)

2. [Aga Khan Hospital](#)

Standard Practices at the Serena Hotel:

- i). Serena Hotel ensures every guest and visitor sanitizes their hands upon arrival and guests and visitor's temperatures are measured.
- ii). Guests and visitors are not expected to wear masks, but you are encouraged to.

You can also view Serena hotel health and safety protocols [here](#).

CONTROL MEASURES:

To provide the highest level of protection to the Schools2030 Global Forum attendees, we will use multiple public health and hygiene measures:

Hygiene measures:

- Hand sanitizers will be available throughout the venue.
- We expect everyone to help minimize the risk of transmission by practicing good health and hygiene etiquette.

Rapid testing:

-COVID self tests will be available for anyone who experiences COVID symptoms during the Global Forum.
