

PREPARATION: LET'S GET YOU READY

CONGRATULATIONS
on being selected to take part in the Schools2030 innovation challenge for 2024. For the next 5 months, you will be working to design and develop an innovation to improve learning outcomes for young people.

We can't wait to start this journey with you!

Meet your design team and together read this pre-pack

To help you prepare for the Schools2030 design sprint, please complete the activities outlines in the pre-pack at your school/youth space.

Organise personal logistics for the workshop (travel and cover for when you're at the workshop)

LAUNCH Phase
(Launch the Design Challenge)

INTRODUCTION:
A four-day in-person workshop facilitated by AKF, where you will be coached in how to design and develop an innovative innovation that improves learning outcomes for young people.

DESIGN SPRINT WORKSHOP

Follow up with AKF coaches/staff to answer any questions or doubts you might have or support with pre-workshop logistics

DEFINE Phase
What are our HMW Questions?

GENERATE Phase
What is our idea?

MAKE Phase
What are your top 6 assumptions?

Evaluate your experience with your coach and determine the next steps.

Evaluate your experience with your coach and determine the next steps.

Month 1:
I have tested the first set of assumptions in my session.

Month 2:
I have tested the second set of assumptions in my session.

Month 3:
I have tested the third set of assumptions in my session.

READY TO TEST MY IDEA:
You will further refine and test your innovation at your own classroom/youth space after the workshop.

An AKF design coach will provide you support for three months after the workshop to test and prove that your idea really solves the challenge preventing positive learning outcomes.

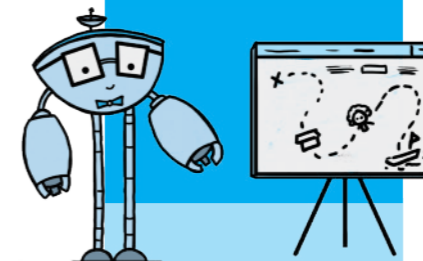

TEST YOUR INNOVATION

TEAM REFLECTION:
Take time with your design time and reflect on

- 1) The design sprint and what you have achieved in these 4 days.
- 2) What your tasks are after this
- 3) How will you communicate & support each other for the next 3 months.

TEST Phase (Test Your Idea)
What are top 3-5 things you learned about your idea.

CELEBRATE!

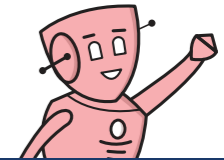

PART 1: MINI-SHOWCASE

Celebrate the design of your and your colleagues' innovations at the Local, National and Global Showcase events

DAY 1:
- Reflecting on our Journey
- Introduction // the power of storytelling
- Elevator pitch
- Forms of presentations
- Prepare Mini-showcase presentations

DAY 2
COUNTY SHOWCASE DAY

END OF 2024 DESIGN CHALLENGE

We made it to the end of the Schools2030 2024 Design Cycle.

CONGRATULATIONS

Help incubate another teams promising solution in your classroom/youth space

Support other Classrooms/-schools/youth spaces to incubate our solution at scale.

OR

I am happy with my journey.
I have learned alot and will apply my knowledge in class/school/community. I'm happy to end my journey here.

AND

My solution is very promising.
We will receive additional support to continue iterating and scaling it in classroom/youth space

NO

YES

Was my idea selected?
What next?

PART 2: INCUBATION

At the end of the 12-week testing phase, the best and most impactful innovations will be selected to see if they can be developed further
